Kwansei Gakuin University also has scholarships for International Students who are in need of financial aid and maintain high academic standards. Details are as follows. (Selection is based on the results of the entrance examination etc.)

Tentative Selection Prior to Enrollment: 50% of the total amount of tuition

The university targets students who are expected to conduct outstanding research after entering the program. Selected candidates will be notified before their entrance into the program. However, it is necessary for students to meet all requirements related to their status of residence, etc., in order to be officially selected to receive the scholarship.
