講師紹介

Associate Professor of Public Policy, teaching courses on comparative politics, comparative capitalism, and the doctoral research seminar. He also directs a seminar on European policymaking, which is conducted jointly by Harvard University and the Ecole Nationale d'Administration (ENA) in France. His research focuses on the politics of institutional change in the advanced industrial democracies. He has authored three books—*Creating Cooperation*, *Changing France*, and *The German Skills Machine* and his articles have appeared in a variety of journals and edited volumes. At Harvard University, he is affiliated with the Malcolm Wiener Center for Social Policy and the Center for Business and Government. He is also a faculty associate of the Center for European Studies and the Weatherhead Center for international Affairs at Harvard. He received his PhD in political science from Harvard University and holds degrees from Oxford University and Duke University.
