[Note]

- 1 As a general rule, enter data at the department level.
- 2 This table shows the full-time faculty teaching status for “subjects deemed important in terms of education (important subjects)” as specified in Article 10-1 of the Standards for Establishing Universities.
- 3 Whether there are students who enrolled in classes or not, all subjects set on the curriculum will be eligible.
- 4 For “Subjects Taught by Full-Time Faculty,” also include concurrently taught subjects by full-time faculty members in other colleges, graduate schools, or other undergraduate education organizations where the full-time faculty members have teaching responsibilities, etc.
- 5 Enter the “Education Category” in accordance with the categories set by the university. For Professional Institute prepare a chart based on Article 13 of the Standards for Establishing Professional Universities or Article 42-9 of the Standards for Establishing Universities.

- 6 For professional universities that use semesters for their courses, divide them into first and second semesters by department.

- 7 In the “All Offered Subjects” field, enter the total for all courses such as "Required Subjects," "Required Elective Subjects," as well as "Elective Subjects" and "Optional Subjects." This field does not represent the total of "Required Courses" and "Required Elective Subjects."
- 8 If the university adopts a semester or quarter system, enter the data on a full-year basis.
- 9 If subjects are taught by several lecturers, including faculty members with concurrent positions, enter the data in the form of a ratio.
Example①: In the case of four full-time faculty members and one faculty member with concurrent positions, full-time faculty members 0.8 and faculty member with concurrent positions 0.2.
Example②: In the case of five faculty member with concurrent positions, faculty member with concurrent positions 1.0.
- 10 If classes for the same subject are held twice a week, use the following calculation method
 - ① If classes are taught by the same lecturer: If the classes are taught by a full-time faculty member, count as one subject taught by a full-time faculty member. If the classes are taught by a faculty member with concurrent positions, count as one subject taught by a faculty member with concurrent positions.
 - ② If classes are taught by several lecturers: If the classes are taught by a full-time faculty member, count as one subject taught by a full-time faculty member. If the classes are taught by a full-time faculty member and a faculty member with concurrent positions, count as 0.5 subject taught by a full-time faculty member and 0.5 subject taught by a faculty member with concurrent positions.

- 1 [Note by KG] Excluding intensive courses offered each semester.
