

# Social Psychological study of pilgrimage behavior as self process ( 1 )

## ABSTRACT

This study aims to describe and analyze the pilgrim's behavior from the point of view of self process. My frame of analysis is based upon the following points.

- I the input conditions: motive for pilgrimage
- II the process of pilgrimage behavior
- III the output condition: after effect of pilgrimage
- IV the dimensions of pilgrimage behavior

**Key words :** pilgrimage behavior, self process, sacred sites
